RGSC01 Iss 4	Railway Group Standards Code	Live	The Railway Group Standards Code (the Code) fulfils the requirements of the RSSB Constitution Agreement for a Code governing activities by RSSB and the members of RSSB in relation to Railway Group Standards (RGSs). It defines the governance arrangements for creating, changing, deviating from, and publishing RGSs. The Code is supplemented by a Standards Manual (the Manual) which defines those elements of the cross industry management of RGSs which are not subject to formal Office of Rail Regulation (ORR) approval. As a result both of the Code and the Manual need to be read in conjunction in order to obtain a complete understanding of the role of members of RSSB in relation to managing RGSs and deviations from them. Each section of the Code is therefore reproduced in the relevant part of the Manual, distinguished by a grey background.	02/03/2013	03/06/2013	03/06/2013		RGSC01 Iss 3		IC

RGSC02 Iss 3	Standards Manual	Live	The purpose of the Railway Group Standards Code (the Code) is to define the governance arrangements for creating, changing, deviating from, and publishing Railway Group Standards (RGSs). The Code is approved by the Office of Rail Regulation (ORR). The Standards Manual (the Manual) supplements the Code by defining those elements of the cross-industry management of RGSs which are not subject to formal ORR approval. The Manual includes guidance relating to the management of RGSs and defines procedures for other documents authorised by RSSB, such as Rail Industry Standards (RISs), and Rail Industry Guidance Notes (GNs). In addition, the Manual defines the processes by which the requirements of the Code are delivered, the roles and responsibilities of RSSB and others within those processes, how the processes for the production and maintenance of RGSs apply to documents authorised by RSSB and the processes for agreeing RSSB support in the production of other industry documents. The Manual is not a stand-alone document and needs to be read in conjunction with the Code. Each section of the Code is therefore reproduced in the relevant part of the Manual, distinguished by a grey background.	02/03/2013	03/06/2013	03/06/2013		RGSC02 Iss 2		IC
